

AI-Empowered SAFe® SAFe Scrum Master

Elevate team performance with facilitation, PI Planning, and practical AI skills.

In this two-day course, you will go beyond team-level fundamentals to master the Scrum Master role within a SAFe enterprise. You will learn to successfully plan and execute the Planning Interval (PI) and ensure alignment across the organization. Now upgraded with an AI-focused curriculum, this training equips you with responsible guidance to protect sensitive data while using AI to accelerate facilitation, coaching, and PI execution.

What You'll Learn

Drive High-Performing Team Execution

Facilitate Scrum events and effective iteration execution for high-performing teams.

Align Strategy with PI Execution

Support Planning Interval (PI) execution to align strategy with delivery.

Coach for Relentless Improvement

Coach Agile teams for maximum business results and relentless improvement.

Apply Practical, Responsible AI Prompting Techniques

Use AI to streamline retrospectives, refine backlogs, and elevate coaching conversations.

Topics Covered

- Introducing Scrum in SAFe
- Characterizing the Role of a Scrum Master
- Experiencing PI Planning
- Facilitating Iteration Execution
- Finishing the PI
- AI for Scrum Masters
- Get Certified

Benefits of Earning Your SSM Certification

Earning your SSM certification and keeping it active also provides access to SAFe+ benefits like SAFe Skills and selected workshops, in addition to SAFe knowledge articles, community forums, exclusive content, and more.
